\$50 for full-time students

SPRING EDUCATION SERIES - SPEAKER BIO'S:

Dr. Jan Talbot, Professor of Chemical Engineering & Materials Science, UCSD – Prof. Talbot leads an electrochemical engineering group, developing mathematical models and conducting research on electrochemical processes, including corrosion. She holds degrees from Penn State Univ. and the Univ. of Minnesota, She was at Oak Ridge National Labs for several years and has been a professor at UCSD since 1986. She is also past-president of the Electrochemical Society (ECS).

Dr. Juan Carlos Nava, Materials and Corrosion Consultant - Dr. Nava is an expert in materials selection and coatings for steamside applications and has an MS and Ph.D. in Corrosion Science from Ohio State University. He has held positions with Max-Planck Institute of Metals Research, Shell Petroleum International, ABB Combustion Engineering, and Proton Energy Systems. He is now a consultant for the DOE-sponsored UltraSupercritical Boiler Consortia and is a member of ECS, NACE, and ASME.

Mr. Roger Benham, President, Bencor Corrosion Specialists - Mr. Benham has extensive experience in cathodic protection design and chemical water treatment systems. He received a BS in Metallurgical Engineering from Cal Poly, worked as a metallurgist at General Atomics, and designed cathodic protection systems at a corrosion engineering company prior to starting his own company, Bencor Corrosion Specialists. He is a member of the American Chemical Society, NACE International, ASM International, and is a past-chair of our local chapter.
